

I am writing concerning the proposal to have LPFM take priority over the current FM translator service. I currently enjoy listening to K-LOVE over an FM translator service and benefit from the programming they provide. K-LOVE is the only option in our community for the type of programming they provide, Christian music all the time. If we lost K-LOVE, our community would completely lose this type of programming. Therefore, I believe it is in the public interest to offer the programming that only K-LOVE provides to our community.
